Experience the Greatest Wildlife Spectacle on Earth

Join our expertly guided 7-day safari to witness the Great Wildebeest Migration in Tanzania's Serengeti National Park. Over 1.5 million wildebeest, 200,000 zebra, and 500,000 gazelle make this annual journey, creating the most spectacular wildlife event on the planet.

Why Choose This Safari?

Our experienced guides know exactly where the herds are at any time of year. We use mobile camps that follow the migration, ensuring you're always in the best position for dramatic river crossings and predator-prey interactions.

What You'll Experience

From the calving season in the southern Serengeti (January-March) to the dramatic Mara River crossings (July-October), every month offers unique migration moments. Big cats, crocodiles, and African wild dogs add to the drama.
